

## Features & Benefits

### MILITARY TOUGH

Built to withstand the extreme conditions experienced during military deployment. Our award winning defence packaging is versatile, durable and virtually unbreakable.

### PRODUCT FEATURES

Optimised for military logistics.

- Recessed Protected Hardware.
- Choice of Zinc Plated, E-coated or Stainless Steel Hardware Available.
- Interlocking Ribs for Secure Stacking.
- Modular Sizes Offering Flexible Inter-stacking Options.
- Minimise Transportation Costs.
- Large Range of Sizes.
- Choice of Colours.
- Breather Valves & Humidity Indicators Fitted for Air Transportation.
- Cases Tested To:
  - MILSTD 648
  - FED STD 101
  - DEF STAN 07-55
  - DEF (AUST) 1000

RECESSED PROTECTED HARDWARE

WEATHER RESISTANT INNER GASKET SEAL

HANDLES WITH SOFT GRIP

RIBBED DESIGN FOR SUPERIOR STRENGTH

INTERLOCKING STACKING FEATURES

MODULAR SIZES INTERSTACK

TOGGLE FASTENERS WITH TRANSIT LOCKING FEATURES

## Land Applications

The Full Spacecase range can be supplied either as a robust general storage box or customised for applications including electronics, communications and medical hardware.

MILITARY TOUGH

## Weapons Storage

Spacecase weapons storage containers are available with moulded or foam internals for pistol, rifle and machine gun applications. Defence containers include: Steyr rifle, Para Minimi, HMG and GPMG. Police Service containers include: MP5, G36 and Glock 19.

MILITARY TOUGH

## Air applications

Spacecase container range currently offers a wide variety of containers for existing aero applications including the T56 and AE2100 engines and ancillary components.

- Containers for engines, propellers and sensitive equipment.
- Robust outer and customised internal furniture eliminates damage in transit during the maintenance cycle.

## LARGE CAPACITY CONTAINERS

Spacecase are amongst the world's largest moulded storage containers with the size range extending to 4 metres long.

- Size range from 2200mm to 4000mm long.
- Galvanised steel internal frame providing maximum strength.
- Fully recessed protective hardware allows containers to be tipped manually and emptied rapidly.
- Movable tyre holders enable secure lifting and can be adjusted to account for centre of gravity of each application.
- Hardware options include breather valves, drain valves and humidity indicators.

# Delivering Military Capability

Spacecase Storage Containers allow defence forces to keep stores at a high level of readiness, ship to theatre efficiently, store in theatre in a minimised deployed footprint and return to base at the end of deployment.

By protecting valuable military assets at each stage in the supply chain Spacecase Storage Containers reduce whole life costs and deliver military capability.

## Customised Containers

### CONTAINER MANAGEMENT

The Spacecase Container range facilitates container management:

- Colour coding of lids and bases.
- Innovative identification and state of readiness of stores.
- RFID and bar code compliant.

### INTERNAL FURNITURE

The Spacecase container range can be customised with:

- Routed and fabricated foam.
- Moulded PE internals.
- Shock mounted sub frames.
